

2016 CLEAN WATER INDIANA GRANT

Scott County Ranking Sheet

This grant includes, pasture and hay planting (forage & biomass planting), pollinator habitat, Heavy Use Area Protection, access road, and 3 practices combined which includes watering facility/pipeline/Heavy Use Area Protection. All practices will be paid within the parameters of CWI guidelines. Highest points will be granted funding first based upon date of application and until funds are exhausted.	<u>Yes</u>	<u>No</u>	<u>Points</u>
1. Are you a new cooperator with the Scott County Soil & Water Conservation District?			
2. Have you participated and received funds through a similar Clean Water Indiana program in the past 3 years?			
3. Do you rotate livestock in a rotational grazing system?			
4. Is the field considered Highly Erodible?			
5. Is the field within 200 ft. of a stream?
